Talking Science with Christof Koch

20\textsuperscript{th} and 21\textsuperscript{st} December 2017

Schedule

Location: LMU Biocenter
Großhaderner Str. 2
82152 Martinsried

\textit{Wednesday 20\textsuperscript{th} of December}

- 18:30 – 19:45

\textbf{Julius Bernstein Lecture by Christof Koch}

\textbf{Location}: B01.019

\textbf{Title}: Consciousness and its Physical Basis

This lecture is open to the general scientific community and additionally is intended as an introduction into the Talking Science program.

- 20:00 –

\textbf{Dinner with students}

\textbf{Location}: tba

Please sign up on the website to join the dinner with Christof Koch. The number of places is limited.
Thursday 21\textsuperscript{st} of December

- 10:30 – 12:00
  - \textbf{Lecture and Discussion}
    - \textbf{Location:} D00.003
    - \textbf{Title:} Big Science, Team Science and Open Science in the Service of Neuroscience
      This lecture and discussion are open to the general scientific community.

- 12:15 – 13:30
  - \textbf{Lunch with students}
    - \textbf{Location:} Freshmaker
      Please sign up on the website to join the lunch with Christof Koch. The number of places is limited.

- 14:00 – 15:00
  - \textbf{First round table discussion: Science}
    - \textbf{Location:} D00.003
      This first round table discussion will give you an opportunity to ask questions regarding Christof Koch’s lectures, and will run into a more detailed discussion about his scientific discoveries as well as the role of science in our society in general.

- 15:00 – 15:30
  - \textbf{Coffee break}

- 15:30 – 16:30
  - \textbf{Second round table discussion: Career}
    - \textbf{Location:} D00.003
      In this second round table we will gain insight from Christof Koch about his choices throughout his scientific career. How much was luck and how much planned? How does
he make decisions on the directions of his research; on taking on new career opportunities and leaving others behind? Students can also take advantage of this forum to discuss the direction of their own research and future plans.
